

Impact Statement for PE and Sports Premium Funding

The amount of £10134 has been received in the Financial Year 2015-16 for Sports Premium. This has been used to pay for a highly qualified specialist PE teacher. This teacher teaches PE to every child in the school, including Nursery. PE lessons have been judged over time to be never less than Good, and are often Outstanding.

Consistent, high quality teaching and the resulting popularisation of PE and Sport has resulted in a significant number of children participating in extra-curricular clubs and activities, also run by the specialist teacher. Before Sports Premium was used in this way, fewer than 30 children participated in school-run extra-curricular PE and Sport activities.

Following this allocation of money, the number of children who participate regularly in extra-curricular sporting activity has risen to more than 150. This number continues to rise.

To ensure teachers benefit from the specialist PE teacher's expertise in their own teaching of PE, Newly and Recently Qualified teachers undertake a programme of observation and professional development in PE with the specialist teacher and their classes.
