

This week, KS1 students have been working on music and movement through chants. We learned a chant called 'Grandma' and performed it as a class then in small groups. Students then created their own chant with movement and taught it to another group.

In year 3, we have been learning about Indian Classical Music and improvisation. We listened to some music and discovered that the drums we could hear were called tabla. We then tried our own tabla rhythm called the Rupak Tal. It was quite difficult because we had to wave on beat one and clap on beats four and six.
