

PE and Sports Premium Funding Impact Statement 2017-18

In the financial year 2017-18, Brunswick Park Primary School received the sum of £10,165.00. This funding was spent entirely on the services of an external specialist PE teacher who provides all PE lessons throughout the school (from Nursery – Y6) and a range of extra-curricular activities.

The funding has enabled the school to provide specialist sports coaching to all pupils throughout the year. The provision includes access to inter schools competition, teacher training and extra-curricular activities. Extra-curricular activities are now participated in by over 40% of pupils year 1-6 and we aim for every pupil to take part in at least two internal competitions and one external competition this academic year (years 2-6). The school has also been granted the Silver Level award from the School Games in recognition of the PE standards at the school 2017/18 (had been Bronze level from 2013 until 2017)

To ensure teachers benefit from the specialist PE teacher's expertise in their own teaching of PE, Newly and Recently Qualified teachers undertake a programme of observation and professional development in PE with the specialist teacher and their classes.
