

Year 1 Autumn 2 Science- Seasonal changes (Winter)/Animals Including Humans

Key facts

1. The months of winter are December, January and February.
2. In winter it is quite chilly and there can be rain, hail and snow.
3. Deciduous trees lose their leaves over winter. (Evergreen trees have leaves all year round).
4. The 5 different animal groups are mammals, amphibians, reptiles, birds and fish.
5. Humans belong to the mammals group.
6. Humans use their sense of smell, touch, taste, hear and sight to understand the world around them, just like other animals.

storm

windy

rain

snow

cloudy

Scientific skills

- Ask questions in science lessons
- Observe
- Collect information

Useful Vocabulary

Winter

- seasons
- winter
- deciduous
- month
- hail
- temperature
- weather
- cold
- hibernate
- snow

Animals inc. Humans

- bird
- fish
- amphibians
- reptiles
- mammals
- carnivore
- herbivore
- omnivore
- feathers
- gills
