<b>3. Barriers to future attainment (for pupils eligible for PP)</b>		
<b>In-school barriers (<i>issues to be addressed in school, such as poor oral language skills</i>)</b>		
<b>A.</b>	The majority of pupils eligible for pupil premium experience difficulties forming grammatically correct sentences. This is related to their writing skills. They face difficulties in applying the correct grammar and punctuation. As a result, the percentage of disadvantaged pupils (particularly in KS1) writing at ARE or above is lower than for other pupils in the school and nationally.	
<b>B.</b>	Pupils eligible for pupil premium have not developed their reading skills (e.g. word level decoding strategies and/or comprehension skills) as well as other pupils in the school or nationally. They do not read as widely or as fluently as pupils from non-disadvantaged backgrounds. As a result, the proportions of disadvantaged pupils reading at ARE or above are lower than other pupils in the school and nationally (particularly in KS1).	
<b>External barriers (<i>issues which may also require action outside school</i>)</b>		
<b>C.</b>	The majority of pupils eligible for pupil premium come from families of deprived socio-economic backgrounds. This has a negative impact on the pupils' personal well-being, which results in poor school performance. This is evident in Teacher Assessments which confirm that pupils arrive to Nursery and Reception with personal skills that are well below the age related expectations. As a result of this, the academic and behavioural development of those pupils can be considerably slower than of other pupils in school.

<b>A. Increase in attainment and progress in writing</b>	Introduction of the Revised Literary Curriculum (with revised medium term plans for teaching writing based on the use of new texts).	While pupils can often demonstrate an understanding of SPAG related skills during discrete test style exercises, they often have difficulty applying them consistently in their independent writing (there is a significant difference in writing and SPAG attainment in KS2). We need to make sure that all teachers, particularly those new to the school, have a clear understanding of how to teach writing (through effective planning, modelling and differentiation) so that all pupils, including those from disadvantaged backgrounds, become more confident writers and can apply their understanding of SPAG skills in the context of different styles of writing, including within Science and Humanities subjects. <b>B. Increase in attainment and progress in reading</b>	Ongoing staff training and development on high quality phonics provision.	As evident in research, there is a link that good reading skills have an impact on academic success. Therefore, the school will PP funding in developing teachers' subject knowledge and skills in delivering high quality phonics and guided reading sessions to all pupils (including the use of effective assessment procedures). <b>A. Increase in attainment and progress in writing</b>	Low attaining PP children taught in small classes for English with a teacher or an additional adult (groups of 10-15 pupils).	Although Brunswick Park is now a 2 form entry school, we have ensured that there are additional teachers/support staff in each year group who can teach a group/class of pupils (smaller targeted groups of mostly PPG pupils). This also reduces the overall size of the two main classes in each year group to 20-23 pupils. As a result, teachers are able to focus more closely on the needs of each pupil in their class. Increase in attainment and progress in writing  Improve the personal and social development of disadvantaged pupils (and increase achievement levels)	In previous years, BPPS worked with a cluster of schools in Southwark as part of a DfE funded programme to improve outcomes for disadvantaged pupils called 'Challenge the Gap'. As part of the programme, 15 PP pupils in Y4 had additional cooking lessons each week with recipes they could, and were expected to, cook at home. They also wrote about their experiences each week, focusing on individual writing targets that had been set by the class teacher each fortnight during individual pupil	The school has decided to adopt pupil conferencing as a key strategy in its approach as there is widespread research (e.g. John Hattie's studies) that effective teacher feedback to pupils is crucial in raising educational standards. Other schools who have adopted pupil conferencing as part of the programme have also reported a significant improvement in outcomes for disadvantaged pupils. Cooking has been chosen as the medium through which a lot of the writing will take place, as the children have shown a real passion and enthusiasm for this area of the curriculum	DH to have half termly meetings with staff involved (teacher and special projects leader) to monitor progress of the pupil.  DH to have meetings with the parents of the children involved so that they are aware of the expectations of the programme and their role within it.	DHT	£5000

	<p>conferencing sessions. This will continue this year although the school will not be part of the formal 'Challenge the Gap' programme.</p>	<p>in the past and we believe it will provide an important stimuli to further develop their writing skills. By providing additional cooking lessons, the children will also be learning life-long lessons and skills which will help them as they grow older and become more independent. The programme proved successful last year in developing pupil's enthusiasm, both in terms of cooking and writing (see below) and we hope it will have a similar impact this year.</p>

As a result, there is a greater level of challenge in conversations during pupil progress meetings about what pupils are expected and are able to achieve. This has helped to improve standards, particularly for disadvantaged pupils.</p>	<p>This will continue. However, more training opportunities still need to be organised for KS2 teachers and teaching assistants (particularly those working with intervention groups) who still teach many children with poor decoding skills (e.g. SEN).</p> <p>More monitoring needs to take place of pupil's reading journals to ensure that they are developing a wide range of comprehension skills which are age and text appropriate. Evidence of the development of comprehension skills in guided reading sessions is not always evident or recorded in journals.</p> <p>Although standards in reading have been maintained throughout the school, more effective monitoring needs to take place to ensure that pupils know their targets and are able to identify key reading skills which they need to develop.</p> <p>Ongoing through half termly pupil progress meetings.</p>

## Pupil Premium Strategy Statement 2021-2022

<p><b>Increase in attainment and progress in writing</b></p> <p><b>(I. Quality Teaching for All)</b></p>	<p>Low attaining PP children taught in small classes for English with a teacher or an additional adult (groups of 10-15 pupils).</p> <p>Additional teachers/support staff allocated to each year group to support the teaching of English (resulting in smaller class sizes).</p> <p>The Assistant Head Teachers and Deputy Head Teacher will teach small groups of PP pupils in Year 2 and Year 6.</p> <p>Additional adults in Year 2, Year 3 and Year 4 will complete small group interventions linked to improving spelling, handwriting and sentence construction.</p> <p>Speech and Language specialist TA will complete interventions with pupils in Years 2-4 to support pupils with relevant difficulties.</p> <p>Dyslexia support 1:1 sessions targeting disadvantaged pupils with very low attainment in writing and reading.</p>	<p>Medium impact: As evident in data outcomes in July 2021, the percentage of pupils on track to achieve the expected standard and above in writing was variable between year groups.</p> <p>AfL practices in writing were constantly reviewed and improved throughout 2020-21, particularly in relation to marking, pupil writing targets and the use of success criteria. While progress has been made in improving teacher's practice in all these areas, it is not yet consistent across all year groups and therefore pupil outcomes, including those for disadvantaged pupils, have been variable (e.g. Year 4)</p> <p>High Level impact: New Medium Term plans were written for English, Science and Humanities on a half termly basis during 2020-21. School monitoring showed that, as a result, pupils experienced a lot more opportunities to develop their writing skills in subject areas outside of English and were regularly writing at length over sustained periods.</p>	<p>Staff training on delivering high quality writing lessons is a key priority for the English subject leader for writing. This year BPPS has a number of new teachers and they will need to be effectively supported so they quickly understand, and are able to embed in their practice, key pedagogical components in the teaching of writing. This will need to involve a range of CPD opportunities for new and existing staff such as peer observations, team teaching and planning, visiting other schools and 1:1 coaching.</p> <p>The development of AfL practices in writing will continue to be a priority for the English subject leader with a particular focus on the planning and use of relevant success criteria which should be driving the teaching and learning in English writing lessons. In order to establish greater consistency in practice, the school's monitoring of writing needs to be regular and effective, especially in the way that areas for development are fed back to teachers so they have a clear understanding of what they need to do to improve.</p> <p>Plans will need to be continually reviewed and updated. Last year teachers worked closely with subject leaders in devising new plans for English, Science and humanities (provided with additional PPA to prepare the plans). This worked very well as teachers were much clearer about expectations and progression in pupil's learning. These arrangements will continue in 2020-2021.</p>

However, in terms of improving or maintaining the child’s wellbeing, these sessions were invaluable and played an extremely important safeguarding role.</p> <p>The learning mentor, AHT for inclusion and AHT for safeguarding have worked very effectively with a number of families from disadvantaged backgrounds, providing support and advice to help them overcome various difficulties.</p> <p>F</p>	<p>Additional intervention/SEN teacher will support with nurture groups in Reception and Y1 during the Autumn term. The Assistant Head for Inclusion will facilitate this.</p> <p>This will continue due to high level impact in previous years. This year we will try to expand provision to the after school clubs as well. However, there is no plan for residential trips in 2021-2022 as of October 2021.</p> <p>This will continue although parents need to be reassured about health and safety concerns (some parents who were offered places for their children declined as they didn’t want to leave overnight).</p> <p>This will continue due to high level impact.
