

Year 1 Spring 2 Science- Animals Including Humans

Key Facts

1. Some senses are stronger than others, for certain animals.
2. Humans use eyes to see, ears to hear, nose to smell, tongue to taste and hands to touch.
3. Humans and other mammals have five senses.
4. You smell using your nose. Your nose can tell if things smell nice or not nice.
5. Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
6. Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
7. Your eyes let you see all the things around you

Parts of the Body

Scientific Skills

- Ask questions in science lessons
- Observe
- Collect information
- To record my results
